## SMIT'S PAVILJOEN

1935 - 2025: 90 years of family, tradition and love for our restaurants!

Smit's Paviljoen has been Giethoorn's hotspot since 1935. This year, 90 years ago, Smit's Paviljoen stood on a number of poles in the middle of the lake, making it only accessible by boat. Inside, it was not much bigger than the current bar. A small terrace around the Paviljoen made it complete.

Over time, the Paviljoen moved to its current location, where it was renovated several times over the years by the second and third generations to its current size.

The fourth generation is now working in the company, so innovations will not be long in coming.
